

SCHEDULE

of courses and seminars of KAM and IÚUK
will be agreed upon on Tuesday 2017-10-03 at 12:20 in the room S9

The following courses will be scheduled:

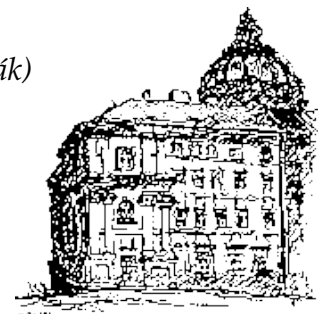

- NDMI010** Graph algorithms (*M. Mareš*)
- NDMI022** Seminar on Combinatorics (*O. Pangrác, R. Šámal, M. Tancer*)
- NDMI055** Selected Chapters on Combinatorics I (*J. Nešetřil, J. Hubička*)
This year on Ramsey theory.
- NDMI060** Coloring of Graphs and Other Combinatorial Structures (*Z. Dvořák*)
- NDMI064** Applied Discrete Mathematics (*M. Loeb1*)
This year on Stanley hypothesis on tree isomorphism.
- NDMI067** Flows, Paths and Cuts (*P. Kolman*)
- NDMI073** Combinatorics and Graph Theory III (*Z. Dvořák*)
- NMAI072** Linear algebra III (*M. Hladík*)
- NOPT051** Interval Methods (*M. Hladík*)
- NOPT053** Optimization Seminar (*M. Hladík*)
- NTIN072** Seminar on Approximation and Online Algorithms (*Feldmann, Kolman, Sgall*)
- NTIN085** Selected topics in computational complexity I (*M. Koucký*)
- NTIN103** Introduction to parametrized algorithms (*A. E. Feldmann*)
- NTIN104** Foundations of Theoretical Cryptography (*P. Hubáček*)

These courses will be scheduled in a different way:

- NDMI059** Graph minors and tree decompositions (*J. Fiala*)
Vote here: <https://doodle.com/poll/8su7hetx9rutwsgh> (until 5. 10. 12:00)

The schedule of these courses are already fixed:

- NDMI090** Bioinformatics Seminar (*P. Daněček, M. Loeb1*)
Held on Wednesdays from 17:20 in S4.
- NTIN050** Seminar on Computational Complexity (*M. Koucký, P. Pudlák*)
Held on Fridays from 13:30 in MÚ Žitná.
- NTIN102** Seminar on Limits of Efficient Computation (*M. Koucký*)
Held on Wednesdays from 12:00 to 14:00 in S324.
