

Ukázka aplikace Spernerovy věty

$$(\mathcal{P}(\{a, b, c, d\}), \subseteq)$$

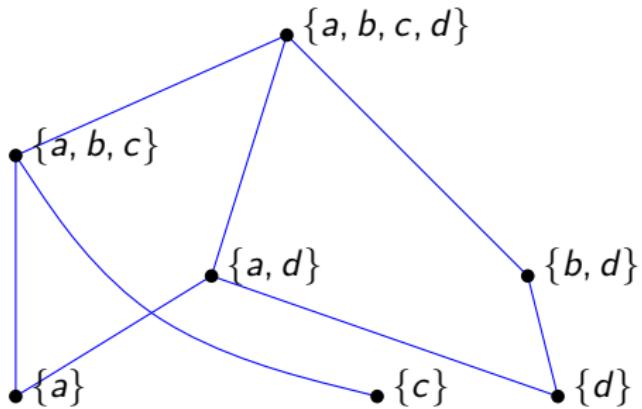

Ukázka aplikace Spernerovy věty

$(\mathcal{P}(\{a, b, c, d\}), \subseteq)$ Max. nezávislá množina s $\binom{4}{2}$ prvky.

Ukázka aplikace Spernerovy věty

(\mathcal{X}, \subseteq)

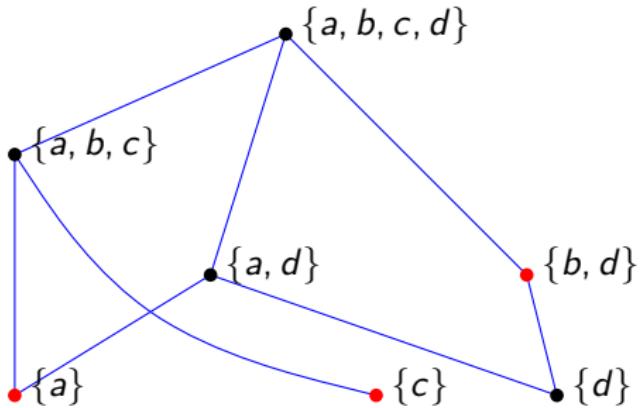

$$\mathcal{X} = \{\{a\}, \{c\}, \{d\}, \{a, d\}, \{b, d\}, \{a, b, c\}, \{a, b, c, d\}\}$$

Ukázka aplikace Spernerovy věty

$$(\mathcal{X}, \subseteq)$$

Max. nezávislá množina s $\leq \binom{4}{2}$ prvky.

$$\mathcal{X} \subseteq \mathcal{P}(\{a, b, c, d\}) \implies \alpha(\mathcal{X}, \subseteq) \leq \alpha(\mathcal{P}(\{a, b, c, d\}), \subseteq)$$
