Obtaining credit for the tutorial

In order to pass the tutorial you must obtain at least 100 points out of a maximum of 150 points over the course of the semester. Points can be earned as follows.

- There will be 12 homeworks during the semester, each worth a maximum of 10 points. For each homework you must submit your solution within (approximately) two weeks. If you submit your homework within a week, you will receive feedback that you can use to revise your homework submission.

  - You can work on the homework problems with other students or using resources of your choice. However, you must write your solution on your own. In case it is suspected that you copied some solution, we may follow up with individual questions and if the suspicion is confirmed you will be penalized.

- There will be 10 (short) quizzes, each worth a maximum of 3 points.

- bonus points may be awarded for participation during the tutorial. This is on an ad-hoc basis and depends on the quality of participation.
